

TiTaN, the leaders in Chemical process equipment offers a wide range of fasteners from high performance super alloys. Fasteners with significant advantages in environments of extreme temperature, pressure and corrosion are extensively used in adverse application, where corrosion, creep, heat resistance and strength are often vital factors.

➔ TYPES WE OFFER

- Slotted cheese screws ➔
- Nuts (cap / hexagonal) ➔
- Washers (plain / spring) ➔
- Hexagonal bolts & screws ➔
- Studs (full / half threaded) ➔
- Hexagonal socket head screws ➔

STANDARDS WE FOLLOW ➔

- ➔ IS 4218 (Part III)
- ➔ IS 2389, 1364, 2016
- ➔ ANSI B 18.2.1 , 18.2.2
- ➔ BS : 1083, 1768,3698
- ➔ BS : 2470, 4168
- ➔ DIN : 6912, 2510, 6915
- ➔ DIN : 931, 933, 960, 961, 916
- ➔ DIN : 912, 913, 914, 915, 964

➔ MATERIALS WE HANDLE

- Titanium / Tantalum ➔
- Zirconium / Niobium ➔
- Nickel / Monle ➔
- Inconel / Incoloy ➔
- Hastelloy / Duplex ➔
- Super Duplex / Nimonic ➔

Titanium Tantalum Products Limited

Estd. In 1981 ISO 9001 - 2000 Certified

EXOTIC METAL FASTENERS

➔ INDUSTRIES WE SERVE

- Defence ➔
- Offshore ➔
- Refineries ➔
- Aerospace ➔
- Orthopaedic ➔
- Nuclear plants ➔
- Electro Plating ➔
- Power Generation ➔
- Chemical industries ➔
- Petrochemical industries ➔
