

TiTaN, the leaders in Chemical Process Equipments Design & Manufacturing, offers a wide range of exotic metal thermowells.

TiTaN's thermowells are used for almost all instrumentation requirements, high / low temperature sensing and severe corrosive environments with seamless/welded constructions or from bar stock depending on the application.

➔ MATERIALS WE HANDLE

- Monel ◀
- Nickel ◀
- Inconel ◀
- Incolloy ◀
- Titanium ◀
- Tantalum ◀
- Hastelloy ◀
- Zirconium ◀
- Cupro nickel ◀
- Special grade SS ◀
- Duplex / Super Duplex ◀

TYPES WE OFFER ◀

- ➔ Straight Thermowells
- ➔ Tapered Thermowells
- ➔ Flanged Thermowells
- ➔ Threaded Thermowells
- ➔ Socketed Thermowells
- ➔ Flanged with Lagging Type
- ➔ Threaded with Lagging Type
- ➔ Socket Weld with Lagging Type
